

2nd Edition of Layout, Detailing and Calculation of Fire Sprinkler Systems Now Available

The NFSA announces the publication of the 2nd Edition of its popular textbook, *Layout, Detailing and Calculation of Fire Sprinkler Systems*. This newly revised textbook has been updated to reference the 2007 and 2010 editions of NFPA 13 with more examples and student exercises and new chapters on contract issues and stocklisting. This text remains the most complete book ever written for the fire sprinkler engineering technician and it's available now!

Written by the NFSA Engineering Department staff and edited by Kenneth E. Isman, P.E., Vice President of Engineering, this text covers every aspect of determining the necessary details for a fire sprinkler system including: hazard classifications, sprinkler spacing, hanger and brace requirements, hydraulic calculations, water supplies, pumps and tanks. The text also contains a review of basic math and physical science that is helpful in understanding the scientific principles behind the requirements that need to be followed.

This text makes an excellent self-study guide for the NICET Automatic Sprinkler Layout and Detail certification program and covers all of the work elements necessary to achieve Level 2 certification and many of the elements needed to achieve Level 3 and Level 4 certification. Even if you are not studying for a NICET exam, this text makes an excellent self-study guide for anyone wanting to know more about fire sprinkler systems.

The text retails for \$95 (plus S&H) to members of the NFSA and \$145 for non-members (plus S&H). However, **if you order the book before August 15, 2010, you can save \$15 off of the retail price** (\$80 + S&H for members and \$130 + S&H for non-members). As an **extra added bonus**, to reward the people that purchased the first edition of the book, if you **clip Ken Isman's picture out of the 1st Edition back cover flap** and send it back to us with your order (mail orders only, no fax orders for this offer), then you can **take another \$10 off the price** of a single book (\$70 + S&H for members and \$120 for non-members). To get your book, fill out the following form and return it with your payment.

Order Form for 2nd Edition: *Layout, Detail and Calculation of Fire Sprinkler Systems*

Name: _____

Company: _____

Street Address: _____

City: _____ State: _____ Zip: _____

Country: _____ Phone: _____ E-Mail: _____

Quantity	Members:	___ 1 x \$70 + Ken's picture =	_____
	Non-members:	___ 1 x \$120 + Ken's picture =	_____
	Members:	___ x \$80 =	_____
	Non-members:	___ x \$130 =	_____
	Shipping and Handling: (\$10 per book)		_____
	Sales Tax: (NY only based on destination)		_____
	Total:		_____
